

MERFELD 2018

Advanced workshop July 23RD-AUG 3

Since this is advertised as an advanced workshop I'm going to be on thin ice in trying to cram in as much as I can for each individual. For those who would explore the rudiments of picture making and have hopes doing some Art along the way you are welcome to bring "works in progress" for advice and or assessment. At the same time it is probably a good idea to start something fresh using material of your own that you may have with you or using the workshop models, studio grounds or other local subjects. I want to help you to develop your "plein air" material for use in your individual pictorial poetry. As far as the Art (visual poetry) of the thing goes all I can do is encourage individuals to aspire to a plain above their current level. **Get out of your comfort level....The sky's the limit go for it !!**

An added material list...

OIL, WATERCOLOR, PASTEL whichever is your preferred medium you should have a complete set.

French easel (portable)...suggested but not required.

Sketch material...pads...Graphite, Conte sticks ...pens- pencils (charcoal or graphite)...fixative...WC...pastel.

Enough painting panels...Dwg.Pastel, WC. Paper for 2 a days @13days. An 18x24 newsprint or "Strathmore Biggy" pad.....**COLOR CHARTS A MUST !!**

Schedule.....

Sun..July 16th 3 PM demonstration of some sort !!
